

STARTS RESIDENCIES BROCHURE - A SHORT PRACTICAL GUIDE**EPFL-ECAL Lab, 2019***Brochure produced in the frame of STARTS RESIDENCIES***INTRODUCTION**

Building on its experience, the STARTS Residencies consortium has defined a methodology paired with tools to successfully set up science, technology and arts residencies. The goal is now to share them with the outside world. This brochure provides readers with the kit necessary to understand and implement science, technology and arts collaborations, illustrated by examples of STARTS Residencies. We hope it will be a valuable tool to all innovation actors.
